

## Technical Skills:

- **Languages:** Javascript, Typescript
- **IT Constructs:** DSA and Algorithms, OOPS, OS and DBMS
- **Web Development:** CSS, SASS, DOM Manipulation, Ajax, Async, Node.js, Rest APIs, Mongoose, CRUD Operations, User Authentication and Authorization, Git, Redux
- **Web Dev Tools:** VSCode, Postman, Chrome DevTools, Github, Figma
- **FrameWorks:** Bootstrap, React, Express.js

## Work Experience:

- **TalentPro (Feb 2024- Jun 2024):** Worked as **full stack developer**, revamped the whole website ([talentproweb.com](https://talentproweb.com)) and give it new "look and feel" with fully responsive and custom designed pages. Being a **Node.js** project, used **Express.js** to create the server and routes for pages. used **MongoDb, MongoDB Atlas** and **Mongoose** for database. Wrote **Vanilla CSS** to give custom feel and used **CSS flexbox** and **Media Queries** to make it highly responsive. Add the functionalities using **Vanilla Javascript**. used **Axios** to send form data asynchronously.
- **NINETRON (Jan 2023- Mar 2023):** worked as **front-end** developer in the [NINETRONE.COM](https://ninetrone.com). created **reusable React Components** from HTML Themes. Made navigation using **React Router**. Worked with **Figma** design to create custom site using **Vanilla CSS** and Javascript and also used **Bootstrap Component** in this project.

## Personal Projects:

- **Ecommerce App:** It is a **node.js** project. it is fully functional and has all the basic functionalities required for basic **ecommerce web app**. created frontend using **React** and used **JWT** for Authentication and Authorization. used **MONGODB** for Database. In this App seller can perform All **CRUD** operation related to **product** and have **Admin dashboard** where Admin can **create and remove** the category and delete the user profile and category and make any other user as admin. Used Git and Github to maintain code and previous version. The Backend Follow **MVC** pattern. Hosted it on Render.
- **Personal Portfolio:** This personal portfolio is a sleek, fully **Responsive** static website hosted on Netlify. Built with **HTML, CSS, and JavaScript**, it features a user-friendly interface and a **dynamic theme toggle**, allowing visitors to seamlessly switch between dark and light modes. The responsive design, achieved through well-implemented **Media queries**, ensures an optimal viewing experience across all devices.

## Education:

- **Qualification:** Swami Vivekanand Subharti University Meerut(2023)
